harithaakannan234@gmail.com

I am writing to express my interest in the Data Science and Machine Learning field. As a recent graduate of Business Information Systems and Computer Science from Murdoch University, I believe my skills and knowledge make me an excellent fit for the position.

I am incredibly passionate about artificial intelligence and have a strong understanding of the current trends and innovative solutions in the industry. My skills have helped me develop a sharp eye for detail and a creative approach to problem-solving. Having a good understanding in python, full stack development and a deep interests for data analysis and visualization, makes me more willing to enter this field

I am a highly motivated individual who is eager to contribute to the success of the team.

I'm eager to share my knowledge and excitement in the subject of data analysis, thus I'm looking for possibilities that would further my interests. My experience has been an example to flexibility, tenacity, and an unwavering desire for excellence. You may view my portfolio at **PORTFOLIO** which provides an overview of my outcomes and the projects that shape my career story.

Thank you for your time and consideration and I look forward to hearing from you.

Dec 2020 - Sep 2021

PORTFOLIO

<https://harithaakannan234.github.io/>

I AM

Passionate about data analysis with a dynamic and outgoing personality. Eager to drive initiatives, embrace challenges, and continuously learn in the pursuit of excellence. Seeking a role in the data analysis sector to leverage my enthusiasm for uncovering insights, my proactive approach, and my dedication to acquiring new skills.

MOST PROUD OF

Full Stack Website Development

2023

- Successfully led a team for a span of three months, overseeing the development of a meeting booking website (MeetMe) that effectively addressed scheduling and management challenges.
- Remained as the team leader throughout each project

Management

2022-2023

- Engaging with numerous students, played a pivotal role as a leader in the student council, leading to a significant 60% enhancement in campus life.
- Leveraging the collective efforts of my team, successfully generated an approximate 80% surge in interest towards university-related subjects and their production. This achievement was attained through strategic utilization of social media for promotional purposes.

Analysis

2022

- Thoroughly studied and meticulously organized a diverse range of resources, including over 100 survey reports, in preparation for comprehensive data analysis.
- Aided in the sending and compiling of large number of emails.

Communication

2022

- As a Murdoch Pioneer Member, I conducted an interview with Mr. Gary Hong, proprietor of the most expensive car vending machine in the world.

Data Science (ML)

2023

- Successfully Completed two full Machine Learning projects. One of them can predict the house rent prices and the other is a dog breed identification which identifies the breed of the dog for them given image.
